## **DETAILED ACTION**

### ***Response to Amendment***

The examiner acknowledges receipt of arguments and amendments dated 7/7/2006. The amendments are accepted as proper in that no new material has been incorporated into the application.

The examiner accepts the amended drawings as overcoming the objections filed in the action dated 2/9/2006. The objections to the drawings are respectfully withdrawn.

In the arguments, the applicant argued a feature regarding source of the torque signal applied to the torque filter, as the torque sensor for detecting the steering torque of the steering wheel, which was not included in the claims. The examiner brought the matter to the applicant's attorney and proposed an examiner's amendment further compact prosecution of the instant case.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey A. Schmidt on 9/25/2006.

The application has been amended as follows:

Claim 1, first limitation, amended to read:

a torque filter for processing a torque signal from a torque sensor that detects the steering torque of the steering wheel;

***Allowable Subject Matter***

Claim 1-4 allowed.

The following is an examiner's statement of reasons for allowance:

All the limitations, in combination, make claim 1 allowable over prior art, with special features distinguishing from prior art power steering apparatus with SAT estimating function and SAT filter combos:

a torque filter for processing a torque signal from a torque sensor that detects the steering torque of the steering wheel;

said electric power steering apparatus also comprises a control system with two degrees of freedom which independently tunes frequency characteristics of steering feeling and road information sensitivity.

Claims 2-4 are allowable as further limiting claim 1.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

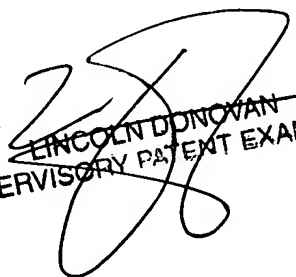

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Horn whose telephone number is 571-272-8591. The examiner can normally be reached on Monday-Friday 7:00-3:30 EST.
